

Within the frame of the Cluster of Excellence “Unifying Concepts in Catalysis” the Faculty of Mathematics and Natural Sciences I, Department of Chemistry, at Humboldt-Universität zu Berlin announces the positions of Junior Research Group Leader

“Theoretical Bioinorganic Chemistry”.

Applicants should have an outstanding record of achievement in important areas of the abovementioned field which complement the existing research activities of the Department for Chemistry as well as the catalysis research within the Berlin area. Scientific exchange with research institutes within and outside Humboldt-Universität and with high tech companies at the science park Berlin-Adlershof and in the Berlin area will be appreciated. The candidate will be involved in the teaching of students covering the entire field of Theoretical Chemistry.

Applicants must be qualified by a postdoctoral research period of 2 – 4 years after graduation.

The Humboldt-Universität seeks to increase the number of female employees in research and teaching and thus in particular invites qualified female scientists to apply for this vacant position. Physically handicapped persons will be preferred, if they are equally qualified.

Applications with necessary documents should be sent to Dekan der Mathematisch-Naturwissenschaftlichen Fakultät I, Humboldt-Universität zu Berlin, “Junior Research Group Theoretical Bioinorganic Chemistry”, 12489 Berlin, Newtonstr. 14, within 4 weeks.
